

OIL & LUBES

When it comes to maintaining top performance out of your Polaris machine, there is no better choice than Pure Polaris lubricants and fuel. We engineer products that meet the ever evolving technology of today's high-performance engines. Designed and tested in conjunction with current motors as they are developed ensures you get an oil that is perfectly matched to your off-road vehicle.

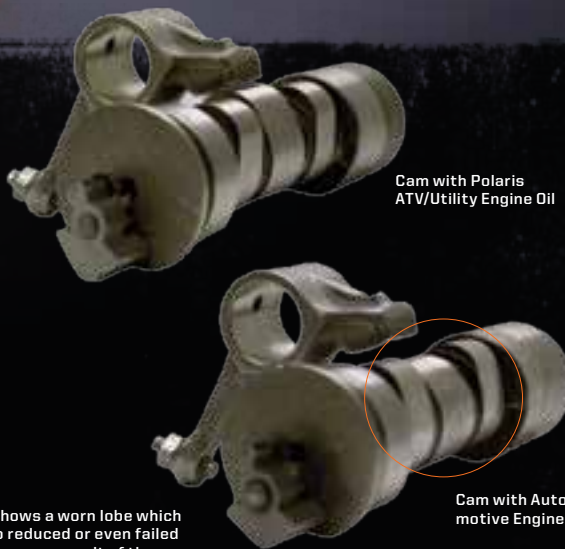

PS-4 PLUS SYNTHETIC ENGINE OIL

Pure Polaris PS-4 Plus full synthetic 4-cycle engine oil is designed specifically for and recommended for all 4-stroke Polaris ATVs and RANGER vehicles. It provides maximum engine protection and ultimate performance at extreme operating temperatures, hot or cold, plus improved cold temperature starting. With millions of miles of testing and thousands of dyno hours, our oils are proven and tested before they ever reach the shelf in your garage, for the dependability and peace of mind that only Pure Polaris lubricants deliver.

- Provides superior performance in all Polaris applications, including wet clutches and gear boxes
- Protects in extreme operating temperatures generated by hard-riding or racing
- Available in quarts, 2 quart, gallons and oil change kits
- Excellent extreme cold startability

ENHANCED LUBRICITY WITH PS-4 PLUS

Enhanced lubricity protects internal engine parts. PS-4 oil offers outstanding film strength that coats and protects, to drastically reduce sliding friction, providing optimum hydrodynamic lubrication. Polaris 4-cycle engines generate high horsepower from small displacement platforms, resulting in high temperature strains on piston, rings, crankshaft, bearings and other internal engine components. PS-4 PLUS' synthetic base stocks and optimized additive chemistries assure the best lubricity, to protect and prolong, the life of these internal components.
